MOHAMED KHALIL CHOUCHEN

IT Technician & Full-Stack Developer · Web · Mobile · AI · IoT

+216 56 747 765 · khalilchouchen112@gmail.com · khalil-chouchen · khalil-chouchen · khalilchouchen.me · Sousse, Tunisia

PROFESSIONAL SUMMARY

Versatile technologist and team leader spanning full-stack development, AI, client relations, recruitment, and business operations. Fast learner who adapts quickly to new domains, tools, and responsibilities, with a proven track record of owning projects end to end. Combines strong technical depth (Web, Mobile, AI, IoT, Networking) with leadership, communication, and business development. Types at 90+ WPM and thrives in fast-paced, high-ownership environments.

EXPERIENCE

Administrative & Operations Manager — Société Moez pour la Gestion (3M Consulting) — Sousse

June 2026 – Present

- Recruit staff in Sousse and Tunis, forward candidate files to employers, and track their progress.
- Prospect partner companies; handle client relations, complaints, and new client registration.
- Manage the cash register and cash flow, prepare cash reports, and pay staff salaries.
- Manage the company's website and content, and handle external administrative procedures.

Help Desk — Société Moez pour la Gestion (MMS International) — Sousse

September 2025 – March 2026

- Created, hosted, and maintained the company website; regularly checked its DNS configuration.
- Maintained and troubleshot office hardware and software; produced email reports.
- Developed a web scraping application and an automated WhatsApp messaging tool.

Computer Science Instructor — Private School, Monastir

September 2024 – June 2025

- Taught scientific subjects from 1ère to Baccalaureate level Algorithms, Logic, ICT, and core sciences.
- Built hands-on lesson plans simplifying data structures and problem-solving for exam preparation.

Freelance Developer & Designer — Web · Mobile · AI · Design — Self-Employed

September 2023 – Present

- Delivered web, mobile, and AI projects for clients, covering full-stack development and deployment.
- Provided UI/UX and graphic design services alongside development, handling projects end to end.

INTERNSHIPS

IoT & Mobile Development Intern — InnoVibe — Sousse, Msaken

Jan 2026 – June 2026

- Built AgriNova, an intelligent agriculture system combining IoT telemetry with mobile control.
- Developed a React Native app for farmers with an integrated AI vision studio for real-time crop-disease detection.
- Engineered the sensor network for farm telemetry and implemented remote valve control from the mobile interface.

Frontend Developer Intern — TYM Solutions — Cyberparc La Manouba

June 2025 – Aug 2025

- Designed and implemented responsive, modern pages for the company's official website.
- Applied UI/UX best practices to optimize performance and cross-device compatibility.

EDUCATION

Cycle d'Ingénieur (Engineering Degree) — EPI School
2026 – Present

Licence en Ingénierie des Systèmes Informatiques "Computer Engineering" — ISITCOM, Sousse
2023 – 2026 · Parcours : Systèmes Embarqués et Internet des Objets

Baccalaureate — Computer Science — Lycée Ibn Rachik, Kairouan
2019 – 2023

LEADERSHIP & COMMUNITY

Community Manager, Trainer & Supervisor — ATAST Club — ISITCOM
Sept 2023 – June 2026

- **Community Manager:** designed all posts, flyers, and visual content for 2 years, and built app prototypes for national competitions.
- **Trainer:** ran UI/UX and Cybersecurity CTF workshops.
- **Supervisor:** mentored new board members on leadership, project management, and workflows.

Project Manager — 3Zero ISITCOM Club
Jan 2024 – June 2024

- Led student teams building open-source and IoT prototypes for 50+ members.
